Accreditation Information

Physician

The National Kidney Foundation is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians. This activity has been approved for *AMA PRA Category 1 Credit(s)*[™].

Dietitian

The National Kidney Foundation is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR).

Physician Assistant

AAPA accepts Category I credit from AOACCME, Prescribed credit from AAFP, and *AMA PRA Category 1 Credit(s)*[™] for the PRA from organizations accredited by ACCME.

Nurse Practitioner

This program is pending approval with the American Academy of Nurse Practitioners.

Nurse and Dialysis Technician

The National Kidney Foundation is an approved provider of continuing nursing education by the New York State Nurses Association, which is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation. It has been assigned code 6EXQ7J-PRV-06

Pharmacist

Pharmacy Continuing Education Credit is being sought for this program.

Social Worker

The National Kidney Foundation Council of Nephrology Social Workers, Provider #1014, is approved as a provider for social work continuing education by the Association of Social Work Boards (ASWB) www.aswb.org, through the Approved Continuing Education (ACE) program. The National Kidney Foundation Council of Nephrology Social Workers maintains responsibility for the program.

Declaration of Disclosure

It is the policy of the National Kidney Foundation (NKF) to ensure balance, independence, objectivity, and scientific rigor in all CME/CE activities. Any individual who has control over CME content is required to disclose to learners any relevant financial relationship(s) they may have with commercial interests supporting this activity or whose products or devices are discussed in this activity.

If, on the basis of information disclosed, a conflict exists, resolution will be achieved based on established policy by the NKF.

Unlabeled/Investigational Use

During their presentations, faculty may discuss an unlabeled use or an investigational use not approved for a commercial product. Each faculty member is required to disclose this information to the audience when referring to an unlabeled or investigational use.

Disclaimer

The faculty and National Kidney Foundation do not recommend the use of any pharmaceutical, diagnostic test, or device outside of the labeled indications as approved by the FDA. Please refer to the official prescribing information for each product for approved indications, contraindications, and warnings.

Learning Objectives

Upon completion of this activity, participants will be able to:

1. Discuss the use of eGFR (estimated Glomerular Filtration Rate) and other methods for timely identification of CKD in diabetes.
2. Describe the management of CKD in diabetes using timely behavioral, nutritional and medical interventions to improve patient outcomes.
3. State new aspects of Vitamin D therapy in CKD outcomes.
4. Discuss the prevalence, detection and clinical management of pediatric diabetes and kidney disease.
5. Describe the recent changes in immunosuppressant dosing in kidney transplantation.
6. List the various types of living donors among ethnic minorities, their relationship to the recipients and the donors' expressed satisfaction with donation.
7. State the metabolic, nutritional, behavioral and social aspects of obesity.
8. Discuss the complications of obesity in kidney transplantation and living donation.
9. List the uses of new diabetes medications in CKD.
10. Explain cardiovascular risk in CKD and appropriate risk management to improve patient outcomes.
