

PROGRAM OVERVIEW

Nearly twenty-six million Americans, and more than one million in New York State, have kidney disease that has progressed to CKD Stage 3 or greater. In our nine-county area, there are more than 1200 people on hemodialysis. In the past decade, this number has doubled and is expected to double again in the coming decade.

This program will assist health care professionals to better understand the problems and challenges of CKD, what to tell patients about their disease and how to organize a CKD management team. A variety of issues relevant to the care of the patient with CKD will also be discussed.

PROGRAM AGENDA

8:30 am –8:55 am	Registration/continental breakfast
8:55 am	Welcome
9:00-10:00 am	<i>CKD: Managing Progressive Chaos</i> Paul Bernstein, MD Clinical Assoc. Professor of Medicine

TARGET AUDIENCE

Kidney Disease for the Primary Care Provider: Current Issues and Future Directions is designed to meet the needs of physicians, physician assistants, nurses, dialysis technicians, nurse practitioners, dietitians and pharmacists.

LEARNING OBJECTIVES

Upon completion of this program, participants will be able to:

- Recognize the vast spectrum of CKD to enhance the CKD management team that will help improve patient outcomes.
- Describe the effects of monoclonal gammopathy on the kidney.
- Discuss the role of vitamins, minerals and alternative medicines in CKD.
- Identify reproductive and sexual health issues as it relates to CKD and kidney transplantation.
- List the financial issues associated with kidney transplantation.

DISCLOSURE & DISCLAIMER POLICIES

Declaration of Disclosure: It is the policy of the National Kidney Foundation (NKF) to ensure balance, independence, objectivity, and scientific rigor in all CME/CE activities. Any individual who has control over CME content is required to disclose to learners prior to the activity any relevant financial relationships they may have with commercial interests supporting this activity or whose products or devices are discussed in this activity. If, on the basis of information disclosed, a perceived conflict exists, resolution will be achieved based on NKF's Disclosure and Conflict of Interest policy.

Unlabeled/Investigational Use Declaration: During their presentations, faculty may discuss an unlabeled use or an investigational use not approved for a commercial product. Each faculty member is required to disclose this information to the audience when referring to an unlabeled or investigational use.

Disclaimer: The faculty and National Kidney Foundation do not recommend the use of any pharmaceutical, diagnostic test, or device outside of the labeled indications as approved by the FDA. Please refer to the official prescribing information for each product for approved indications, contraindications, and warnings.

REGISTRATION

The deadline for registration is **February 27, 2010.**
