Tu idioma. Tu experiencia. El apoyo que alguien necesita.

Si hablas español y has vivido con enfermedad renal, diálisis o has recibido un trasplante, tu voz importa.

- Muchos pacientes enfrentan la enfermedad renal sin apoyo en su idioma
- Brinda apoyo uno a uno y comprensión cultural
- Comparte tu experiencia y di: "Yo entiendo"

Capacítate. Conéctate. Asegúrate de que nadie enfrente la enfermedad renal solo — ni sin ser escuchado.
