

DID YOU KNOW?

30 MILLION AMERICANS—1 in 7 adults—have chronic kidney disease, and most don't know it.

EVERY 5 MINUTES someone's kidneys fail.

450,000+ PEOPLE depend on dialysis for survival.

100,000+ PEOPLE are on the waiting list for a kidney transplant.

80 MILLION PEOPLE—1 in 3 adults—are at risk of developing chronic kidney disease. Those with high blood pressure, diabetes or a family history of these conditions or kidney disease are at risk.

EARLY DETECTION and proper treatment can slow or prevent the progression of kidney disease.

Thank you to our host:

Fueled by passion and urgency, National Kidney Foundation (NKF) is a lifeline for all people affected by kidney disease. As pioneers of scientific research and innovation, NKF focuses on the whole patient through the lens of kidney health. Relentless in our work, we enhance lives through action, education, and accelerating change. the largest, most comprehensive and longstanding, patient centric organization dedicated to the awareness, prevention and treatment of kidney disease in the US. For more information about NKF visit kidney.org.
