

CE Information

Nurse

The National Kidney Foundation is accredited as a provider of continued nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Dietitian

The National Kidney Foundation is a Continuing Professional Education (CPE) Accredited Provider with the Commission on Dietetic Registration (CDR)

Declaration of Disclosure

It is the policy of the National Kidney Foundation (NKF) to ensure balance, independence, objectivity, and scientific rigor in all CME/CE activities. Any individual who has control over CME/CE content is required to disclose to learners prior to the activity any relevant financial relationship(s) they may have with commercial interests supporting this activity or whose products or devices are discussed in this activity.

If, on the basis of information disclosed, a perceived conflict exists, resolution will be achieved based on NKF's Disclosure and Conflict of Interest Policy. Accredited status does not imply endorsement by the NKF or ANCC of any commercial products displayed in conjunction with this activity.

Unlabeled/Investigational Use

During their presentations, faculty may discuss an unlabeled use or an investigational use not approved for a commercial product. Each faculty member is required to disclose this information to the audience when referring to an unlabeled or investigational use.

Disclaimer

The faculty and National Kidney Foundation do not recommend the use of any pharmaceutical, diagnostic test, or device outside of the labeled indications as approved by the FDA. Please refer to the official prescribing information for each product for approved indications, contraindications, and warnings.

Information contained in this National Kidney Foundation (NKF) educational resource is based upon current data available at the time of publication. The information is intended to help clinicians become aware of new scientific findings and developments. This NKF educational resource is not intended to set out a preferred standard of care and should not be construed as one. Neither should the information be interpreted as prescribing an exclusive course of management.

Variations in practice will inevitably and appropriately occur when clinicians take into account the needs of individual patients, available resources, and limitations unique to an institution or type of practice. Every health care professional making use of information in this NKF educational resource is responsible for interpreting the data as it pertains to clinical decision making in each individual patient.

Program Overview

This full day program will focus on the treatment of chronic kidney disease as it relates to mineral and bone disease, patient adherence, nutrition and malnutrition, new food labeling and diabetic chronic kidney disease.

Target Audience

This program is designed for nurses, registered dietitians, dietetic technicians, and other healthcare professionals who care for patients with kidney disease.

Program Objective

The overall objective of this program is to provide a continuing education opportunity for nurses, registered dietitians, and dietetic technicians with an emphasis on renal nutrition, chronic kidney disease, and treatment.
