**ACCREDITATION**

This activity has been submitted to the American Nephrology Nurses' Association (ANNA) for approval to award contact hours. The ANNA is accredited as an approver of continuing nursing education by the American Nurses Credentialing Center's Commission on Accreditation.

Indiana Council of Nephrology Social Workers, National Association of Nephrology Technicians/Technologists, and American Dietetics Association continuing education units are available.

To receive continuing education credits, symposium participants must attend the full session. For further information, contact the National Kidney Foundation of Indiana at **800-382-9971**.

**DISCLOSURE**

In accordance with the standards for Commercial Support, education programs sponsored by the National Kidney Foundation of Indiana, Inc. (NKFI) must demonstrate balance, independence, objectivity and scientific rigor. All faculty, authors, editors and planning committee members participating in a NKFI sponsored activity are required to disclose any relevant financial interest or other relationship with the manufacture(s) of any commercial product(s) and/or provider(s) of commercial services that are discussed in an educational activity.

**NOTE**

While offering continuing education hours noted above, this activity is not intended to provide extensive training or certification in the field.

## TWENTY FIFTH ANNUAL STUART A. KLEIT SYMPOSIUM

### COURSE DESCRIPTION

This one-day multi-disciplinary seminar will enhance understanding of advances in care of the chronic kidney disease patient and provide information to nephrology professionals. Attendees will be able to discuss the challenges and opportunities facing the ESRD patient, transplant recipients, caregivers and the professionals providing that care.

### COURSE OBJECTIVES

At the conclusion of this seminar, participants should be able to:

- List strategies for developing Patient Centered Care
- Describe the rationale and challenges of the bioartificial kidney
- Identify warning signs of depression and anxiety among ESRD patients
- Explain the options for iron administration for dialysis patients
- Describe the impact of the policy change for kidney transplant programs and organ procurement organizations
- Review the issues surrounding diabetic management for patients awaiting transplant
- Outline general approaches to address health literacy among CKD patients
