## OVERVIEW OF DINING WITH THE STARS

The National Kidney Foundation is uniting local chefs, restaurants, and celebrities in the fight to raise awareness about kidney disease. This year, the NKF is proud to recognize Clark Reliance.

During the event, more than 20 chefs will recreate their signature dishes to be sampled by guests. Local celebrities will help the chefs distribute these dishes and guests are encouraged to take photographs and mingle with them. The event will also feature a Tito's Vodka Toss game, a silent and/live auction, live entertainment, a program to honor kidney patients and their families, and an awards presentation for Clark Reliance.

This event is a wonderful opportunity for companies to get exposure in the community, entertain clients, thank dedicated employees, or simply enjoy an evening out while supporting a great cause.

## NATIONAL KIDNEY FOUNDATION MISSION

The National Kidney Foundation is the leading organization in the U.S. dedicated to the awareness, prevention and treatment of kidney disease for hundreds of thousands of healthcare professionals, millions of patients and their families, and tens of millions of Americans at risk.

## HOW DOES KIDNEY DISEASE AFFECT OHIO

Did you know that in Ohio alone, **over one million** people are living with kidney disease? Because symptoms may not appear until the kidneys are actually failing, millions of people are unaware they have kidney damage and are not taking steps to protect the health of their kidneys. The National Kidney Foundation is dedicated to combating this issue by increasing awareness and improving the health and well-being of individuals and families affected by kidney disease, as well as increasing the availability of all organs for transplantation.

The National Kidney Foundation is a leader in promoting organ donation awareness through local community fairs, seminars, school programs, and special events. We are dedicated to promoting organ donation through the National Organ Donor Registry. Dialysis clinics and thousands of CKD patients turn toward the NKF for patient services, information, education, and support.
